

# *The Universe is Yours - The Leading Edge of Astrology!!*

Finally, after seven years in the writing, Philip Sedgwick's latest galactic astrology offering is ready! Now you can get your own copy of *The Soul of the Sky* at a special prepublication price. But wait, there's more!

You can also get the *Galactic Data Disk* add-on. This comprehensive series gives you: The Galactic Ephemeris (over 8,700 points in space), The Named and Number Centaur Ephemeris 1700 - 2050, The Named Kuiper Belt Object Ephemeris 1700 - 2050, plus The Constellational Star Ephemeris (over 2500 primary constellation stars - also included within the Galactic Ephemeris). Then there are other special lists: black holes, anomalistic pulsars and more!

To round out your universal studies there is the treatise, *Astronomy for Astrologers*. This comprehensive text was written specifically for the Astronomy course at NorthStar College of Astrological Studies. This provides you with a basic over view of the universe from time considerations, to astrological calculations from astronomical data, house systems, our solar system, the galaxy, black holes, pulsars, quasars and more, all from the pure astronomy of it all.

This can all be yours (a value of over \$100) at an introductory price of only \$89.99 (all fees in U.S. Dollars!) Shipping date is expected to be May 1, 2003.

Why would you wait!? And why would you buy each separately?! As an added bonus, any updates made to the Centaur or Kuiper Belt Ephemeridae will be updated free by e-mail through December 31<sup>st</sup> 2003 (after that information on regular subscription updates will be provided).

And there's more yet! A limited number of my second book, *The Astrology of Deep Space* have been acquired. There are only a few left and they will never be reprinted. If you purchase all three books on CD now, you can obtain one of these for only \$10 (\$12.95 cover price). Read on below. There are more wonderful things offered. But now, you can grasp the entirety of the Universe both astronomically and astrologically. Who could ask for anything more?

**NOTE: This CD contains read only files for each of these three works available in a pdf format. To use the CD, you must have or download Adobe Acrobat Reader, version 4 or higher ([www.adobe.com](http://www.adobe.com)).**
