## HORARY FOR NEOPHYTES

Horary is the ancient art of answering questions without need for a birth horoscope. It's the closest astrological technique to divination that provides a full picture of a situation's past, present, and future. Learn how to approach a horary chart and find your answer, and how to dig deeper for details. Nina Gryphon will teach you the basics of this venerable technique in this information-packed talk. This talk is perfect for intermediate astrologers or advanced astrologers who want to improve their horary skills.
